## SOFTWARE ENGINEER

A results-driven Software Engineering student with hands-on experience in building complex web applications, I have successfully managed projects for global clients, ensuring a reliable approach to development.

## FEATURED PROJECTS

Recruitment Management System | Spica Rec *Designed and developed a custom recruitment platform to streamline applicant matching.*

- Tech Stack: MERN Stack (MongoDB, Express, React, Node).
- Key Feature: Engineered a unique geolocation algorithm that matches applicants to jobs within a specific 10-15 mile radius based on postcodes.
- Impact: Successfully implemented the solution using entirely free-tier resources, significantly reducing operational costs for the client while improving candidate-to-job match accuracy.

Dog Walking Management Platform | Fetch Cambridge (UK) *Built a comprehensive booking and management system for a UK-based pet care company.*

- Tech Stack: Next.js (Full Stack).
- Functionality: Created a dual-interface system allowing clients to book services seamlessly while enabling dog walkers to view schedules, dog details, and booking specifics in real-time.

Coaching Business Platform | Kamilla Normman *Developed an integrated business hub for a professional life coach.*

- Scope: Built a system to manage client bookings and facilitate the sale of digital courses.
- Outcome: Provided a streamlined funnel for client acquisition and content monetization.

WordPress Development Solutions *Delivered tailored websites for various industries including e-commerce and creative portfolios.*

- SKM Apparels: Developed a full e-commerce storefront for an apparel brand.
- Portfolio Sites: Created high-performance portfolio websites for video editors to showcase high-quality media content

## TECHNICAL SKILLS

- Core Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js (Full Stack).
- CMS & Design: WordPress Development, Tailwind CSS.
- Other Languages : Java, C++, python.

## EDUCATION

Bachelor of Science in Software Engineering
Comsats University | Lahore, Pakistan Feb 2027

- Current Status: 7th Semester
- CGPA: 3.39 / 4.00
